# Dietary Support for Joint Comfort, Mood and Liver Health\*

**S-Adenosylmethionine (SAME)** is a naturally occurring compound found in almost every tissue and fluid in the body. It is involved in many important processes associated with mood, joint comfort and liver health.\*

## Mood Support

SAME supplementation helps promote and maintain emotional well-being by supporting the production and breakdown of brain chemicals, such as serotonin, melatonin, and dopamine.\*

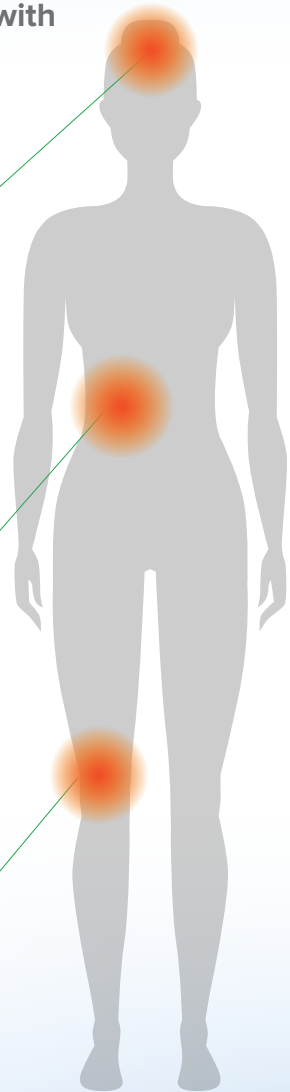

## Liver Health

SAME helps maintain healthy liver functions and detoxification by converting into glutathione, the master antioxidant that helps the liver combat oxidative stress, cellular damage, free radical activity and DNA breakdown.\*

## Joint Comfort

SAME supports joint comfort and function by promoting proteoglycan synthesis and other mechanisms that contribute to healthy cartilage structure and function.\*

**SAMe**

# Not all SAME is the same. Omne Diem™ SAME is a better SAME.

## Stability and Safety

- Formulated with pharmaceutical grade S-Adenosylmethionine Butanedisulfonate (SAME) for greater stability.
- Packaged in individual tamper-proof foil blister-packs to maximize stability and safety.

## Bioavailability

- Made naturally by microbiological fermentation and specially processed in an ultra-low moisture and temperature controlled cleanroom to preserve 68-80% (S,S) SAME, the highest active level available.
- Plant-based enteric coating designed to release in the small intestine for maximum bioavailability and absorption.

## GI Friendly

- The plant-based enteric coating used in Omne Diem's SAME is designed to help reduce allergic reactions, upset stomach and gastrointestinal irritation.
- Does not contain harsh chemicals, synthetic color and plastic co-polymer coating excipients included in other SAME products.

### Omne Diem™ SAME Daily Recommended Usage:

1-2 tablets per day †

† Recommended usage can vary depending on the intended use. Up to 4 tablets can be taken per day in divided doses.

\*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any diseases.

**Omne Diem™ SAME** contains pharmaceutical grade s-adenosylmethionine and delivers the highest active level of (S,S) isomer available.

Enteric-coated tablets feature a GI friendly natural plant-based coating with no synthetic copolymers or plasticizers.

## Formula Benefits:

- Supports cartilage structure and joint comfort and function.\*
- Supports sustained emotional well-being.\*
- Helps maintain healthy liver functions and detoxification.\*
- Designed for maximum stability, bioavailability, absorption, and safety.\*
